## Dietary Information and Allergens

Sustainability is part of the fabric at Regent's and we're committed to serving delicious food, responsibly.

We hold a 3 Star Rating from the Sustainable Restaurant Association, and are recognised widely for our efforts in sustainable and ethical sourcing.

Over 90% of our animal products come from British Red Tractor Assured farms (with the exception of some continental cheeses and charcuterie) and we are committed to 100% British Free Range eggs. We work actively with the Marine Conservation Society to ensure that all of our fish is sustainably sourced, taking into account factors such as the impact of aquaculture, global fish stocks, and catch methods. We cut waste right through the supply chain by sourcing cosmetically imperfect fruit and vegetables which would otherwise have been thrown away.

Our seasonal menus for Regent's in 2018 celebrate delicious, seasonal ingredients from a select list of local suppliers who we work closely with to ensure their values align with our own and their produce is of the highest quality.

**We aim to accommodate all dietary requirements. If you have an allergy please ask a member of staff for more information regarding the ingredients of dishes offered.**
